PROCEEDINGS

We are particularly grateful to the authors for their fine written contributions and cooperation during the editing and printing process. Of course, a proceedings is only as good as the reviewers, and we were fortunate to recruit the services of 35 knowledgeable and skilled volunteers. Their work was a much appreciated necessity. Artwork was skillfully developed for the proceedings by David Besenger (cover) and Dana Eastes. A very special note of gratitude is extended to Sandy Clark (redactory editor) and Annette Wiseman for their patience, experience, and skill in developing this proceedings. Without their assistance the final product would have been much less.
